MAGNALatch® PANIC BAR

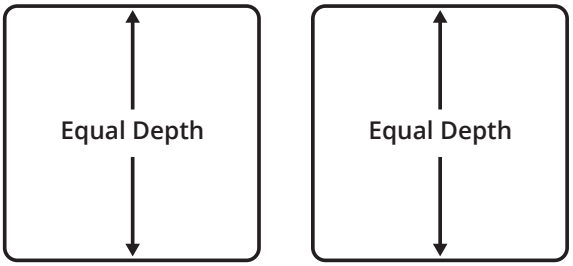

NEW PRODUCT

World's First Magnetic Latching Panic Bar For Outdoor Gates. Built with Magnetic Reliability, Corrosion Resistance and Adjustability.

MagnaLatch® Panic Bar – ML3PB36R

When installing the Panic Bar, the gate frame and fence post must be the same depth.

Constructed With Permanent Rare-Earth Magnets – No Power Source Needed

- Reliable magnetic latching - no mechanical resistance, gate securely latches every time
- Magnet allows for greater intraday movement – not found in panic bars built for indoor use
- Purpose-built for outdoor environments – corrosion resistant components
- Horizontally adjustable up to ½" with alignment marks to maintain ideal latching range
- Gate gap variance: minimum = 7/16" maximum = 15/16"
- Compatible with a range of common locks including levers, coded, electronic & smart
- ADA suitable

D&D ASSA ABLOY
