TECHNA

Industrial Barrier Gate Operator
IBG24DCW / IBG24DCG

ORDER GUIDE

Why TECHNA over BG790 ?

TECHNA Industrial is here. While the **BG790** has supported the market for nearly 30 years, it remains an analogue, relay-driven product in a digital world heavy, harder to install, limited in diagnostics, and increasingly difficult to service. **TECHNA Industrial** is the direct replacement for the BG790, built as a ground-up, modern platform on a unified shared architecture that provides simplified servicing, cross-compatible components, and consistent programming across the entire **TECHNA family.** Designed specifically for wide-lane applications, **TECHNA Industrial** delivers a modern, intuitive, lightweight, logic-driven operator that streamlines installation, enhances serviceability, and integrates seamlessly with today's logic-based technologies.

Step 1:

Choose your Model Color

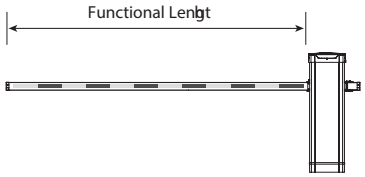

IBG24DCW*	Industrial Operator White	18', & 24'	120V / 230V 1PH
IBG24DCG*	Industrial Operator Grey	18', & 24'	120V / 230V 1PH

* IBG operators are configured for 115/230V as standard. For installations requiring different voltages, a **3PHCONV** converter is required.

Step 2:

Choose your Arm

- **Our new barrier operators list arms by their functional length, not their total length like our previous models.**
- Only LiftMaster arms are UL® Certified with the operator.

SKU	Description	Legacy SKU
IBGARM18	18' Functional	—
IBGARM24	24' Functional	**K65-1208**

Step 3:

Choose your Recommended Accessories

LOOPDETLM	Plug-in Loop Detector	**TRAY33AH**	33Ah Battery Tray w/ Harness
LD7LP	Wired Low Power Loop Detector	**BGALARM**	BG External Alarm
STAR1000	Commercial Access Control Receiver	**SP20W12V**	Solar Panel Kit, 12V, 20W
3PHCONV	3-Phase Voltage Converter	**A12330SGLPK**	33Ah Battery w/ Harness
HTR	Heater Kit for Commercial Operator	**K41-0102-000**	33Ah Battery Adaptor Harness Kit

Smart. Simple. Built to Last.

Select your features and order the perfect TECHNA Barrier Gate Operator for your organization.
