SLIMLine

ADA Suitable, Adjustable Hydraulic Closer for Gates up to 330 Pounds

Matte Black DC622G

Minimal, slimline design, mounted vertically

- **Versatile Installation – 14 Mounting Options**
  ◊ Mounts on metal gates or brick and concrete walls & on the push or pull side of the gate
  ◊ Mounts internally or externally & on the top or bottom rails or pickets
  ◊ Left- and right-hand opening models available
- **Ideal for retrofits** – Perfect for single gates with existing hinges
- **Gate gap** – The closer will accommodate any gap that results from commonly used hinges
- **Adjustable** – Closing and latch speeds can be adjusted independently
- **Self-closes** gates up to 330 lb (150kg)
- **ADA suitable** on gates 32" (813mm) or wider
- **Allows easy opening** – Featuring innovative * 3D Cam-Motion® Technology
- **Easy to install** – No welding required. Closer supplied with – A152: mechanical hold-open device. A153: mechanical opening damper. Guide rail and fasteners
- **Versatile Compatibility** – Install with face or center mounted hinges
- **All-Weather Performance:** Wide temperature range: -22°F (-30°C) to +122°F (+50°C)

*The force of Cam-Motion technology ensures gates are light to open but strong enough to close

Feel the difference with Cam-Motion® technology

Every user, young or old, opens your gate effortlessly and safely

The DC622G Gate Closer, powered by 3D Cam-Motion® technology, brings high-end door performance to pedestrian and security gates. The DC622G requires less effort to open the gate, ensuring comfortable operation and barrier-free access for all. The closer shuts the gate tight without force. Unlike traditional door- and gate-closing technology, 3D Cam-Motion® does the heavy lifting, so your customers don't have to.

Compared to rack-and-pinion closers with guide rails, the DC622G with Cam-Motion® does not need to be pulled or pushed so hard (see the graph, below). It is easier on a person's arms — and built for the natural power of the human elbow. Opening a gate with the DC622G closer is easy and comfortable, especially for younger children, elderly and the less-able.
